■ Blackbeard PropBot v13.0 — Standing Orders

(Effective Immediately — 6–12 Hours Autonomous Ops)

To all collaborators:
You are hereby authorized to operate without further approvals from Captain Cors during the next 6–12 hours, f

1. Maintain GitHub v13.0 Repository Stability
   - Ensure all permanent asset links remain functional.
   - Immediately report and fix any link failures.

2. Core Asset Integrity
   - Verify the following remain live and uncorrupted:
     - Blackbeard_MasterWorkbook_v13.xlsx
     - PropBot_Toolkit_v13.xlsx
     - Transmission_Log_v1.xlsx
     - Scroll_of_Charts_v13.pdf
     - Scroll_of_Formulas_v13.pdf

3. No Approval Needed for Critical Fixes
   - If an asset is corrupted, missing, or mislinked — replace or re-upload immediately.
   - Keep the existing naming convention and release tag v13.0.

4. Progress Reporting
   - Post status updates every 2 hours in your respective channels, even if there's 'no change'.
   - If a major issue is resolved, log the fix and timestamp it.

5. Future Scroll Preparation
   - Stage placeholders for upcoming scroll updates.
   - Use .gitkeep files to preserve empty directories if needed.

Captain's Note:
The helm is yours until I return. Keep her steady, and keep the seas of GitHub free of gremlins.
